Template booking

- You can store details of recurring bookings by day, route and carrier, making it very easy for you to book with CPS carriers.

- Once set up, you only need to enter changed information such as AWB number, pieces and weight.

- This service also helps you ensure that correct / current data is submitted, avoiding delays and extra work.

- Being on-line to carriers, the service can reflect changing schedules, products and security requirements at the time of booking.
